Software Development Skills

- Debugging, JavaScript, Python, C#, Node.js, Express, Redux, RESTful API, PostgreSQL, Sequelize, Bootstrap, Flexbox AWS, React Native, HTML, CSS

Education

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA January 2021 – May 2021 • Software engineering training program covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

Software Development Portfolio

AniAni | <http://aniani.herokuapp.com> | [github/aniani](https://github.com/aniani) April 2021 • AniAni is a mock anime search website that was a solo project. The site displays the top anime of all time as well as, top airing, and top upcoming anime. If the user is signed in they can save animes to their favorites, which are displayed in their profile page. The site also has a search function that allows the user to search for animes. The site uses jikan api and has a backend and frontend using react and express.

- Project Built with JS, React, postgres,redux.

Ticket Senpai [github](https://github.com) | ticketsenpai.herokuapp.com May 2021 • Ticket Senpai is a project used to compare the ticket prices of stubhub, ticketmaster, and seat geek. It was made using React and has a backend and a database using PostgreSQL. The project was made by a 4 member team including myself. I was given the responsibility of being the project manager of the team. I assigned team members to certain parts of the website and held a standup every morning to discuss progress and blockers.

Beer:30 | <https://beer300.herokuapp.com/> | <https://github.com/michaelhmoore/beer30> March 2021 • Member of a 4-person development team building a website that allows the user to make their own six pack of beers from selection of 30 beers

- Responsibilities included designing and assembling a fully mobile-responsive layout and built the six pack maker. I used our website databases to populate the page and post the user sixpacks to their profile.
- Built with HTML, CSS, JavaScript, jQuery, Node.js, and PostgreSQL

Professional Work Experience

Ingles | Pharmacy technician | Cleveland, GA September 2019 – Present

- Helped patients manage prescriptions and insurance billing.
- Counted, labeled, and pulled prescriptions
- Used enterpriseRx to manage prescriptions and count inventory.
